Student Success Centre

Career & Planning Services

CAPS can help you develop an effective job search strategy and connect with potential employers through our many services:

- Meet with a Career Advisor regarding your job search and employment issues
- Explore print and electronic career resources to help plan your future at the Career Resource Centre
- Access career-related job opportunities and information through our web site
- Attend Career Panel Discussions and Career Fairs
- Find out about workshops and company information sessions
- Get feedback on your resume, cover letter and interview skills

Where to find us:

Sir George Williams Campus
1455 de Maisonneuve West H-440

Internship search steps

Following these steps will help you to master the art of the job search, and succeed in finding the internship you want.

The most important thing in the initial phase of planning your internship involves setting your learning objectives / career goals and putting together a job search plan that will lead you in a positive direction and towards an internship opportunity that will best suit your needs. Listed below are a few questions you should ask yourself before you even begin your internship search.

Develop an Internship Target

- What are your career goals?
- What skills do you need to strengthen in order for you to reach these goals?
- How will your targeted internship help you to strengthen your skills?
- What transferable skills do you have?
- What would you describe as the ideal internship for you?

Prepare for your Internship Search

- Register to use the CAPS Website so you can browse the internship postings or search through directories of internships
- Contact companies directly and ask if there are internships available
- Network with people you know and make them aware of your goals (teachers, friends, family members, etc.)
- Check government Websites
- Visit and register with Placement Étudiant
- Check out internship resources at the Career Resource Center (H-440)
- Get suggestions from the Outreach / Placement Officer at CAPS

Build your career portfolio

- Take advantage of workshops related to job search techniques and strategies
- Make an appointment to see one of our Placement Officers to get feedback on your CV and cover letter
- Contact references and make a list available to employers upon request
- If your field of study requires you to have a portfolio, have it organized and available for viewing.
- What transferable skills do you have?
- What would you describe as the ideal internship for you?

Set your priorities

- Make a prioritized list of desired internships
- Research the possibilities to the fullest extent
- Determine the best way to apply for the internship position
- Inquire if you are uncertain about requirements, eligibility or qualifications
- Find out the contact person
- Follow up on favorable responses

UNIVERSITÉ
Concordia
UNIVERSITY

Dear ENCS students,

You are invited to attend the 2015 Concordia's Engineering Faculty Career Fair, which is hosted by the ECA and CAPS. This is an immeasurable opportunity for all ENCS students as you will be able to make a first contact with diversified and numerous engineering companies.

In fact, 40 companies specialized in all engineering disciplines available at Concordia will be present and accessible to all. Needless to say, the importance of every contact made with a prospective employer goes beyond words, for this can be of great impact on your entry to the labour market, and on the beginning of your career. For this matter, we greatly recommend you to be prepared for this occasion and for all the possible questions you might be asked by the companies' representatives.

Along these lines, we want to thank all the people who made this event possible; the many enthusiastically involved volunteers, Mrs. Antonella Nizzola, and Career and Planning Services (CAPS) who were essential pieces of the organization's puzzle for permitting the attendance of the various employers.

We hope that all ENCS students will be able to attend this event and we wish you all success in your academic and professional life.

Yours sincerely,
Sebastian Arjona Mesa
Vice-President of External Affairs,

ECA

Aviya

Aersopace Systems

aerospace systems

DESCRIPTION

Aviya is a leader in engineering services and solutions for mission-critical aerospace and defense systems. We provide expertise in systems, software, mechanical and hardware engineering. Our experience covers all aspects of system development. Our certification expertise covers FAA, TC, and EASA, from DO-254 to DO-178B Level A. Our employees are constantly learning and sharing ideas in our fast paced environment. Employees interact with highly skilled and seasoned experts who, in turn, share their knowledge with new and upcoming talent-everyone is encouraged to ask questions. Aviya's talented and committed workforce is the foundation of its success and growth, anyone who joins Aviya will become an in-

tegral part of its foundation. Aviya prides itself on its dynamic team of engineers. Our team consists of players that are intuitive, eager to learn, thought provoking and detail oriented. Each member works efficiently on his/her own and is a key contributor to the team as a whole. Our employees are open to training and development; and feedback from peers, supervisors, and managers.

BOMBARDIER

the evolution of mobility

About Aerospace

With more than 34,100 employees and a leadership position in global markets, Bombardier Aerospace designs, manufactures and supports innovative aviation products for the **business, commercial, specialized and amphibious aircraft markets**. We have the most comprehensive aircraft portfolio and we hold the number one position in business and regional aircraft. Our high-performance aircraft and services set the **standard of excellence** in several markets, including:

- ***Business aircraft** - Learjet, Challenger and Global aircraft families
- ***Commercial aircraft** - new C Series program, CRJ Series and Q Series aircraft families
- ***Aerostructures & Engineering Services** - aircraft structures, component repair and other services
- ***Amphibious aircraft** - Bombardier 415 and Bombardier 415 MP aircraft
- ***Specialized aircraft solutions** - Bombardier aircraft modified for special missions
- ***Aircraft services and training** - aircraft parts, maintenance, comprehensive training, technical support and publications, and online services

Bouthillette Parizeau Inc.

DESCRIPTION

Since the inception of Bouthillette Parizeau (BPA) in 1956, the firm's experienced and innovative professionals have offered the best in mechanical and electrical engineering services for all types of building systems. BPA believes that each project is unique. Our personalized approach toward our clients is designed to meet, and even exceed expectations. As BPA continues to evolve and grow, we constantly adjust our of-

fer and services to match the changing needs of our clients and to remain the best in class mechanical and electrical specialized firm in Canada.

Guillevin International

**GUILLEVIN
INTERNATIONAL co.**

DESCRIPTION

The origins of Guillevin International Co. date back to 1906 when the City of Montreal transitioned from gas to electric street lighting.

Today, with our nationwide network of over 100 locations and 1,200 employees, Guillevin International Co. is a leader and the largest family-owned distributor of electrical, industrial and safety and security products.

SERVICE is our business: throughout the years, Guillevin has been synonymous with quality, efficiency and innovation in the field of product distribution and supply. Driven by our uncompromising commitment to satisfying our B2B customers' requirements, we have established a vast network of distribution centers all doing business based on the needs of their local customers.

QUALITY is our priority: Guillevin's vast array of products and equipment is equaled only by their unmatched quality and reliability. In fact, since its earliest beginnings, the company has governed all aspects of its operations based on the premise that its customers are the reason for its existence. Our PEOPLE make it happen: our employees have always been the determining factor in our ability to deliver. This shared dedication to customer satisfaction is backed and nurtured by our commitment to the ongoing training and development of our people.

DESCRIPTION

District 3 is a community dedicated to collaboration, innovation and entrepreneurship. Located in a vibrant space at Concordia University, District 3 members collaborate across disciplines on challenging and real world initiatives that transform bold ideas into impactful solutions for society. District 3 startups meet students' needs for practical experience by providing them with various professional opportunities, which is vital to securing employment after graduation. District 3 is creating a dynamic ecosystem of ambitious, innovative and entrepreneurial individuals motivated by problems they've identified in various industries and fields to develop businesses that solve those needs. District 3 is here to help its members find success in their endeavours through coaching, mentorship and networking opportunities. District 3 is an incubator of ideas and people, focused on providing an enriching infrastructure for its members to learn, meet like-minded people and thrive.

District 3 members collaborate across disciplines on challenging and real world initiatives that transform bold ideas into impactful solutions for society. District 3 startups meet students' needs for practical experience by providing them with various professional opportunities, which is vital to securing employment after graduation. District 3 is creating a dynamic ecosystem of ambitious, innovative and entrepreneurial individuals motivated by problems they've identified in various industries and fields to develop businesses that solve those needs. District 3 is here to help its members find success in their endeavours through coaching, mentorship and networking opportunities. District 3 is an incubator of ideas and people, focused on providing an enriching infrastructure for its members to learn, meet like-minded people and thrive.

The 3 stands for our founding principles: innovation, collaboration and entrepreneurship.

District 3's key goals are:

- Offering professional development opportunities for Concordia's amazing and talented students.

- Helping the Montreal startup community with coaching and mentorship.
- Promoting entrepreneurship and innovation in Montreal.
- Collaborating with Concordia's alumni as experts and mentors

VALUE FOR THE COMMUNITY

A **social network**: people interested in innovation and entrepreneurship meet and learn about activities and initiatives in the District 3 ecosystem or just enjoy a cup of coffee in a buzzing, productive atmosphere.

The **District 3 Maker Space** is a place to gain invaluable experience in the idea-to-prototype process through collaborating with other emerging experts in the ecosystem.

The **District 3 Innovation Incubator** helps small to medium enterprises with innovative ideas to move from idea to impact by connecting them with experts in residence who coach and mentor them through market validation, product development and pitching to potential stakeholders. What's more, during every step of their District 3 experience, networking opportunities will help them increase their likelihood of success and provide them with invaluable connections in the business and startup communities.

Innovative programming for members and non-members alike that stress personal growth and problem solving for real world issues.

Practical methodologies that take projects from an early ideation to completion.

Please take 5 seconds to thank a volunteer for their work during this career fair!

Without their help it would simply not be possible.

EVENT FOR BUILDING AND CIVIL ENGINEERING

Careers in Building and Civil Engineering Panel Discussion

Are you interested in learning about careers in building or civil engineering?

Alumni and industry professionals will share their career experiences, success stories and offer tips and advice to help you build a successful career.

Date: Thursday, November 12th

Time: 3:00-5:00pm

Location: H-765

Register: <http://www.concordia.ca/offices/cdev/registration.html>

Majors Targeted: Building and Civil Engineering

Degree Targeted: Bachelors, Masters and PhD

Target Audience: 1st year, 2nd year, 3rd year and Final Year

Please note: If you sign up for this event, it is expected that you will show up or cancel as there is limited seating.

Please arrive 15 mins. early to register; late arrivals to this event might not be permitted to enter once the presentation has begun.

Career Fair Continues!
Come tomorrow for the second
and last day!
